

MISSION EXHIBIT AT CONFERENCE

Display at Methodist
Meeting.

Magnitude of Feature Prop-
aganda of Church Ex-
hibited.

Great Body of Church Workers Settle
Down to Hard Work Be-
fore Them.

LOS ANGELES, Cal., May 5.—An important feature of to-day's proceedings of the Methodist general conference was the opening of the magnificent missionary exhibit in the building formerly occupied by the Los Angeles Chamber of Commerce. The display is comprehensive, showing in accurate detail the magnitude of this feature of Methodist propaganda.

The morning session of the conference was devoted to the reading of the quadrennial address of the board of bishops of the Methodist Episcopal church to the general conference, and the afternoon to the receipt and reference of memorials from the various annual conferences. The morning session was presided over by Bishop Henry W. Warren and the afternoon session by Bishop J. W. Walker.

The various committees got together during the early morning hours and elected their respective chairmen and secretaries, but as there was no business before them, adjournments were taken until tomorrow. Beginning to-morrow the general conference will hold sessions only in the morning, thus allowing the delegates to give their attention during the afternoons to committee work.

Race Question Up.
Dr. George Elliott of Detroit presented a memorial to the effect that the committee on Episcopacy consider the desirability of the election of a colored bishop. He said that he believed that the Methodist Episcopal church had reached a crisis in its relations with the colored people. "If we are to hold the colored membership," he said, "we ought to give them some sort of leadership which they understand and trust and which under-stands them."

Charles P. McClelland of New York, by delegate, spoke in opposition to Dr. Elliott's resolution. Mr. McClelland said he was very sorry that this resolution was offered at this time; that if the church had reached a crisis in its relations with the colored people, it was brought about by just such resolutions as this. He believed that the race question had been brought before the conference entirely too much, and he said he hoped the present conference would close this agitation.

Mr. Elliott said, to see any man elected to Episcopal honors, regardless of color, when that man should attain high worth and distinction as would befit such high recognition.

A resolution was offered by Rev. Horace Jacobs of Central Pennsylvania conference, to request the publishers of the Daily Christian Advocate, the official organ of the conference, to withdraw from its advertising columns all references to the current problems of the publishers of the Advocate gave assurance to the conference that if the resolution should be withdrawn there would be no further cause for complaint on that score.

Quadrennial Address.
The reading of the quadrennial address of the bishops of the Methodist Episcopal church to the general conference was the feature of the day's session. Bishop Cyrus D. Foss of Philadelphia read the address. It elaborately reviewed the statistical records of the past four years. The Sunday school include an aggregate of 3,124,644. The world-wide scope of the work of the church was indicated by the brief review of the administration of bishops in foreign lands. Three features of the last quadrennium were emphasized as standing out prominently. The twentieth century thank offering movement, which brought \$20,000,000 into the treasury of the church for the work of education, philanthropy and debt paying; the open-door emergency mission revival, which has inspired the church with new generosity; and the quadrennial observances, which all over the English-speaking world commemorated the two hundredth anniversary of John Wesley's birth. The American university at Washington was warmly commended, as well as the college of Baltimore, which has indirectly suffered severe losses during the recent fire in that city. The relation between the Methodist Episcopal church and the Methodist Episcopal church, South, were declared to be a common hymnal, a common catechism and a uniform order of service. The suggestion was made that some mutual arrangement should be made whereby transfer of ministers from one of these denominations to the other should be expedited and made easy.

Foreign Missions.
The question of supervising foreign mission fields, whether by occasional visits or general superintendents from the country, by the residence of one of them in a mission field for a period of four years at a time or by the personal supervision of a missionary assigned to that particular field, was the most important question to be considered. The time limit in the past was referred to as one of the "warfare" which would claim attention. Warnings were given against the current evils of the time, political corruption, the liquor traffic, the tyranny of

trade-unionism, the greed of unscrupulous employers, lynching, the negro question, and Mormonism. A recommendation was made that a new chapter on popular amusements be added to the discipline, admonishing Methodists to guard their spiritual life and to avoid such amusements as have a dangerous or demoralizing tendency. The chapter is intended to take the place of the present paragraph No. 245, which occasioned much discussion at the general conference at Chicago four years ago. The address as a whole made a deep impression and was received at the end with hearty applause.

QUAY'S WORK IN CONGRESS NEAR END

Appointment of His Secretary and
Confidential Clerk as U. S. Con-
sul Indicates This.

WASHINGTON, May 5.—It is regarded as significant here that among the executive appointments announced today was that of William F. Wright to be Consul-General of the United States to Munich. Mr. Wright for many years has been Senator Quay's secretary and confidential clerk. It is regarded as likely that this provision is made for Mr. Wright for the reason that Mr. Quay may feel that his work in Congress is nearing an end.

Two Men Killed in Explosion

While Placing Dynamite in Position
Stuff Explodes, With Awful
Result.

INDIANAPOLIS, May 5.—Meagre information from the William Spencer railroad camp on the Indianapolis Southern railroad camp near Unionville indicates that two men were killed, two fatally and three seriously injured. It seems that a dozen or more men were working in a tunnel over a charge of dynamite, placing it in position, when the explosion occurred.

All of the men killed or wounded are foreigners, and it is impossible to secure their names, owing to the absence of any means of communication.

Children Stricken With Strange Malady

Seven Die From Mysterious Disease
in New York, and Doctors
Are Puzzled.

NEW YORK, May 5.—Seven children have died within the past few days and many others are suffering from a new disease which has appeared in the neighborhood of Madison avenue and One Hundred and Fifth street. At least twenty cases are reported from one hospital. The doctors have been wholly unable to diagnose the disease, but they believe it to be due to germs arising from the walls of old tenements, the lower floors of which are being rebuilt into stores. The walls, ceilings and floors are being scraped or torn down and in the dust thus raised the germs appear to germinate.

The symptoms of the new disease are headache, lassitude, rapidly developing fever and usually death within twenty-four hours. The health department is now investigating the matter.

Power of the Governor Questioned

Argument as to His Right to Estab-
lish Military Rule Being
Heard in Denver.

DENVER, May 5.—Arguments on the writ of habeas corpus issued on behalf of Charles H. Moyer, president of the Western Federation of Miners, who has been deprived of his freedom since March 30 by order of Gov. Peabody and is now held as a military prisoner at Telluride, which is under martial law, were heard by the State Supreme court today. Two full days will be consumed in argument, five hours to each side.

The question at issue is whether the Governor of the State has authority to establish military rule for the purpose of suppressing what is termed "a state of insurrection and rebellion" due to acts of strikers in his proclamations declaring martial law in Teller, San Miguel and Las Animas counties. Gov. Peabody denies the jurisdiction of the court in the case of Moyer and claims the right to suspend the writs of courts and to arrest and hold as military prisoners any persons whom he deems guilty of inciting "insurrection."

DISCRIMINATING LADIES
Enjoy Using Herpicide on Account of Its Distinctiveness.
The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it always that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness, in killing it. Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an idealistic charm to the hair that is quite distinctive. Sold by leading druggists. Send 30c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Black Will Present Roosevelt's Name

Former Governor of Empire State to
Make Principal Nominating Speech
at Chicago Convention.

WASHINGTON, May 5.—It was announced at the White house today that former Gov. Frank S. Black of New York would make the principal speech in nominating President Roosevelt at the Chicago convention. He will be followed by several delegates with seconding speeches, one of which will be delivered by Harry Silwell Edwards, the well known author and writer, of Macon, Ga. At this time, however, it has not been determined definitely who will deliver these speeches.

Concrete results of the series of political conferences held at the White House during the past week have not been reached on several of the important topics under discussion. It was said today by authority that the conference held on only the subject of many that will be held from time to time before the Chicago convention. The expectation is that a decision regarding the chairmanship of the Republican National committee will be reached before the convention assembled, but that it has not been reached yet it is asserted positively.

The President has adhered to his determination announced months ago not to permit himself to be drawn into any content that might arise over the nomination of a candidate for the Vice-Presidency. Naturally, he is interested in the matter, but he believes that it ought to be determined by the party leaders in the convention without suggestion from him.

TO ALL INTERESTED in Silk Culture.

The Utah silk commission takes pleasure in again notifying the people of our State that the season for raising worms is here again, and we are prepared to send silk worm eggs to those who desire to engage in this industry this year. We have already received many letters from those State intending to take up the work this season, and hope those who have raised silk in the past will continue to do so, as their past experience will help them to add much to the quality of the cocoons they raise this year.

The commissioners have always felt that much of the success of this industry depends upon the reeling, and having the silk come in marketable condition from the homes, yet there are many who have preferred to sell the cocoons. To those we are glad to give the information that they can be sold in Washington. When we receive the exact information regarding this matter it will be published.

In a few days we shall receive from the Agricultural department at Washington mulberry trees and cuttings; the cuttings will furnish grafts for those who already have stock trees. If it is too late in some parts of the State to use them for this, they can be planted and this year's growth can be used next year. We were very sorry to find last year that many of the trees bought and planted produce leaves which the worms would not eat; also, a quantity of seed which we had sent out with instructions that the trees would have to be grafted, have so far been neglected. As far as possible we gave information as to where good grafts could be got near them at the proper time, and have been doing all we could to correct this trouble. We trust this help from the Government will add much to the work we have done.

We cannot be too anxious for the success of this line of work, as the production of large quantities of silk in the future depends on the planting of trees now.

We will be pleased to forward either trees or cuttings to those applying for them.

Address all letters to the Secretary, No. 72 E 3rd St., Salt Lake City, Utah.
MARGARET A. CAINE,
Secretary Utah Silk Commission.
